Love Bug Name Craft

Supplies

- Construction paper
- markers, crayons or paint (and a paintbrush)
- scissors
- glue stick
- googly eyes (optional)
- pipe cleaners (optional)

Instructions

1. Fold and draw half of each heart shape on the folded edge of the paper. You'll need one heart for each letter in your child's name, plus one for the head.
2. Your child may be able to cut out the hearts, keeping the paper folded.
3. Have the child draw a face on one heart. *Optional:* add googly eyes; use the pipe cleaner pieces and some smaller hearts to make antennae.
4. Have them write one letter from their name on each heart. If they don't know how to write it themselves, draw it lightly on the heart so they can trace it.
5. Assemble the hearts in order and glue them together.
6. *Optional:* use construction paper to make little feet and attach with glue.
